Claim 1 contains the misspelling “polyorganosiloxane (sic)”. Correction is required.

Claims 1, 4 and 5 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The specification as filed does not disclose composition containing a polyorganosiloxane “A”, a polymer prepared by polymerizing a monomer “B” in the presence of “A” and a “polymer prepared by polymerizing, in the presence of the polyorganosiloxane (sic) (A) and the polymer of monomer (B), 5 to 13.99 parts by weight of vinyl monomer (C)” but rather at least the first two material are disclosed by the specification as filed as being intermediates for producing the “polymer prepared by polymerizing, in the presence of the polyorganosiloxane (A) and the polymer of monomer (B)” sequentially. Note paragraphs 8-10 of applicants published application in this regard.

Claims 1, 4 and 5 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Paragraphs 8-10 of applicants published specification discloses a sequential process for production of “D”, contrary to applicants claims 1 which recites the various intermediates for production of “D” as being components present in a composition in combination, a fact which would cause those skilled in the art to question whether “D” of

Art Unit: 1796

claim 1 is actually intended to be drawn to a combination of materials or whether the materials recited are actually intermediates for producing "D".

Applicants remarks are moot since all previous rejections/objections have been withdrawn.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication should be directed to Jeffrey C. Mullis at telephone number 571 272 1075.
